I haven't been that enthusiastic since Fallout 2. Sure, I enjoyed Fallout 3. But since I think it's pretty tight in every way, I'm more excited about Fallout 4 than I am about almost anything else. I really really really hope this game is for real, and that they'll manage to get it right from the start.

Fallout 4: still an open goal.

Anyone who can have that kind of hype about what's supposed to be some kind of landmark in gaming can only mean that they're going to have a very, very long career. And that career will be a healthy one. I'll take happiness over pretty much anything at this point. I like the idea that Bethesda now has a brand name that people will actually remember it by. I'm a little worried that the 4 I went with was chosen at random. I can't shake the feeling that the name should be a big verb. "Fallout 4? I just read that on a Nexus post? Ok, which one of the Old Umber Brotherhood is after them?"
