[Online Game] Elden Ring 1.0.1 [PC] By Karma Freelance Well done developer. I was first attracted to this game when you first released the promo video and screenshots of it. Then when I saw the play list, I was immediately impressed. Though I had a bit of a hard time playing due to the delayed release and then because of the mandatory updates that it seemed you were making the game very difficult to play. You succeeded in delaying most of the updates, but it did start making the game more difficult with all of them. This left me feeling hopeless. Then came you wonderful translation of this game. I could not believe how professional it was. If you are going to take your time with the English version of a game, I would expect the translation would be only a minor issue. However, I was really surprised at how awesome you did with the English version. This is a shame because I was looking forward to playing the game, but was very glad that I continued to pay attention to your English translation and the updates because I ended up becoming a big fan of it. I now need to know what new language packs you will be releasing. ? [Online Game] Elden Ring 1.0.0 [PC] By Karma Freelance Released! When I heard of the news and began to check on the homepage, I really was moving in slow motion in the excitement.
