ES IS BACK! The thread is being reactivated as of a change in the mods list. Congratulations go to Alexandra Roszak, who has taken the lead on the task of keeping this thread active. Kudos also go out to Kaleidostella, who informed me that the previous incarnation of this thread has been deleted. It's been hidden and can't be seen in search engine searches. Kaleidostella also states that no baby names were born on this board. Looks like we're in compliance with rule #3. --"> For the first two months, I hope to maintain the thread by posting actual links to birth announcements/leaks as they become available. Once the baby's on the way, I will try to update the thread whenever I can. Thanks to the parent volunteers who post press releases online, what could have been a lengthy task will be much, much easier. As always, if there are any questions you have, please feel free to ask in the posts in the header. Updates will be added as they become available. You are also welcome to always reference the rules and my previous posts about them. -->"The goal is to have as little "sensitivity" as possible. Mom and Dad will be named, but no names and places are ever revealed unless a leak reveals them. Press releases may be posted online, but leaks have to be posted first. Any personal information that isn't necessary for the baby's privacy will have to be removed or not posted. Links won't be posted, baby names won't be posted, unless the source of the leak specifically says that some of them are. -->The types of posts I can usually make are the birth announcements as they become available. If the birth is not announced publicly, or if it leaks, I can post the information we have from the birth announcements, but I'm not promising anything. --> If you have any questions or concerns, please feel free to ask in the posts in the header or leave a comment on these posts. This is a volunteer effort, and it means a lot to me that you're willing to invest your time to make this thread a success. Thanks. Allow me to introduce you to Ezra E. Thompson. He's back in the news after surviving a brutal attack that killed his wife Melissa. -->"I have always used my military experience with firearms to make myself seem more frightening than I was. I love cars and I
