FIFA, the EA SPORTS football videogame franchise, will return with the release of FIFA 22 in August 2017. As always, the game will feature real-world leagues, stadiums and real players — including a player card system that will create the true-to-life experience for all types of players. FIFA 22 will be available for PS4, Xbox One and PC, and can be pre-ordered now on Amazon.com. [ASAP FUT] FIFA 22 Add-Ons Will Focus on Retooling and Refining FUT Drafts Add-ons for FIFA Ultimate Team (FUT) have always done a great job of helping players improve their club teams through both commercial and custom content. However, when it came to the actual in-game experience, the meta-data that inspired the FUT Draft system had a lot of room to grow. The Add-Ons season in FIFA Ultimate Team has just ended, but the FUT lead team is excited to reveal that the staff has been hard at work on the next round of content. First of all, the focus of the Add-Ons for FIFA 22 will be on improving the FUT Draft experience. This will be achieved via two ways: 1) providing more information for players to help make better decisions in FUT Drafts, and 2) improving the flow of the FUT Draft system. Both of these aspects of the FUT Draft will be available as part of a number of upcoming Add-Ons for FIFA 22. FIFA Ultimate Team Add-Ons #1: Advice Lines for FIFA 22 The goal of the new set of Add-Ons is to provide detailed and timely information to help players improve their FUT Drafts. On the advice lines, there will be detailed visual and verbal instructions to help players understand what they are seeing on the screen. These instructions will be included in real-time as players are completing the FUT Draft. As a test, the team will provide a new set of advice lines for users who own the FUT 22 Season Pass. These lines will feature a new, updated look, as well as the instructions, and will be rolled out with the release of FIFA 22. In addition to the advice lines, the team will be introducing a complete overhaul of the FUT Draft process itself, which is being improved to make the experience easier for players. Part of this overhaul will include instructions to help players
