Allogeneic stem-cell transplantation in children and young adults with acute lymphoblastic leukemia - Results from the SFGM-TC. European Society for Blood and Bone Marrow Transplantation (EBMT), Food and Drug Administration (FDA) and the International Bone Marrow Transplant Registry (IBMTR). The aim of this study is to describe the outcome of 41 allogeneic stem-cell transplantations (SCT) in children and young adults (CYA) with acute lymphoblastic leukemia (ALL) between 1993 and 2003. The median age was 14 (range 3.1-23.5 years). In principle two conditioning regimens were used. All patients with leukemia-free post-transplant survival (LFS) more than 5 years were alive and in continuous complete remission (CCR). The probabilities of LFS and overall survival were, in the first year, 86% (95% confidence interval (CI): 75-94%) and 62% (95% CI: 46-77%) and after 3 years 91% (95% CI: 77-98%) and 67% (95% CI: 52-80%). Twenty patients were not eligible because of poor response to induction chemotherapy or poor performance at bone marrow harvest. In these patients the probability of LFS was 10% (95% CI: 3-19%) and overall survival was 5% (95% CI: 0-11%). The 2-year probabilities for CCR, relapse and leukemia-free survival after unrelated SCT were 30% (95% CI: 21-41%), 31% (95% CI: 21-42%), and 26% (95% CI: 16-37%), respectively. Sixty-four percent (95%

The majority of his work came from his affiliation with an underground club, the Living Room (a.k.a. The Living Room Festival), which was shuttered by the authorities in the mid-1990s, and can be characterized as a 'punk' club. Books *I Never Promised You a Rose Garden* In 1996, Tolkan released *I Never Promised You a Rose Garden*, a collection of photographs featuring members of the alternative rock underground in New York City. *The Unseen* Tolkan's first solo album, *The Unseen*, was released in Japan in October 2013. "I wanted it to be a continuation of this unpolished, gritty aesthetic.
