Customise your character - FIFA 3D World players have an even greater range of customization to create the perfect-looking player. Get rid of imperfect facial features and adorn them with dozens of new and improved customization items. These include new badges, shoes and crests. With FIFA Ultimate Team, you can create unique, original personalities and take on friends, rivals and fellow gamers around the world. Just like in the real world, team chemistry is everything.

What's new:

- **New gameplay features create a more realistic impact on gameplay, bringing depth and a thrilling competitive dynamic to team-based, online and offline modes.**
- **FIFA 22 introduces a brand new dynamic Story Mode that takes its lead from the new gameplay. FIFA's award-winning storytelling engine comes to FIFA 22 as a new addition to the game, displaying the emotional impact of events in new ways.**

FIFA 22 introduces "HyperMotion™ Technology," which uses motion capture data collected from 22 real-life players playing a complete, high-intensity football match in motion capture suits. The data collected from player movements, tackles, aerial duels and on-ball actions is used to power FIFA 22 gameplay. Thanks to this new technology, players control a unprecedented level of physicality on the field of play, causing an additional layer of creativity in gameplay, whether they are using the ball or physically trying to win the ball back. Gameplay changes return in FIFA Ultimate Team, with new methods of upending tactical set-ups:

- • **Player positions have become more purpose-built,**
- • **Pass maps have moved away from the traditional left-to-right centre of the pitch in favour of players getting to the ball at the correct angle,**
- • **Goalkeepers have been made more vulnerable but they have more possibilities to dribble and attack going forwards.**

FIFA is a sports video game series that debuted in 1992. It became one of the top-grossing video games in the United States by the early 2000s, and was known for its gameplay, realism, and presentation. The FIFA series stands as the second-most popular sports game series of all time, behind the Madden series. What is FIFA 22? FIFA 22 is the 22nd main installment in the series. The initial announcement of the game was made back in September 2011, with a beta available on September 29th of that year. It was originally released on March 2nd, 2014 for Xbox 360 and PlayStation 3, and on May 12th, 2015 for the Xbox One and PlayStation 4. It is also available on Xbox One and PlayStation 4 as part of the FIFA Ultimate Team series. What is the FIFA Series? The FIFA series is a FIFA-branded games series. It was released starting in 1992 and was the second-most popular sports game in the United States by the early 2000s. The FIFA series was created by Soccer Electronic Entertainment. What is the FIFA Ultimate Team Series? EA Sports' Ultimate Team is a game where players can purchase packs of in-game players in order to strengthen their teams. This can be done in a number of ways including paying real-world money to purchase player packs, recruiting players from matches in the game, or through a combination of both. It is played within the FIFA series but is a separate series of games. Is FIFA in the GTA 5 Universe? The final cutscene and the radio commercial for the game feature the voice of Tiger Woods. This is the second time this has happened since the fifth game, 2013. The first time was in the 2010 game. What the Hell is going on in this Commercial? The commercial for FIFA 21 focuses on a player "by committee". This is a reference to what the committee did with the upcoming FIFA World Cup. The cutscene where Jimmy hits the ball into the goal and runs off was meant to be hilarious; however, on the Xbox One, the player loses his position (as if he was knocked out by Jimmy) after the ball hit the post. Why is this so? I'm not an expert at glitches, but this is what I'm assuming happened: Jimmy runs to the edge of the field and hits the ball into the goal. His run is a lot longer
