FIFA is the best-selling franchise in videogame history, with over 76 million copies sold around the world since its launch in September 1992. FIFA is a series of association football video games developed by EA Canada, published by Electronic Arts and distributed by EA Sports. The series is structured into four main installments: FIFA, FIFA Street, FIFA International Soccer and FIFA Soccer. The last two titles were published and distributed by EA Sports, while the first title, FIFA, was published by Panasonic and manufactured by Sega, which then later changed its name to Electronic Arts. FIFA was released in many installments as a licensed sports game, and in this regard, many had similarities to the players' association football game Pro Evolution Soccer. This was discontinued with the release of FIFA 2000. In this fourth edition of FIFA, the series makes its first big jump in gameplay from last year. You can now play as your own custom team, create your own team and play as your favorite club, or play the national team as they suit up in their home and away jerseys. This year, FIFA also takes control of online play, allowing you to play players from across the world, showing off your skills and achievements or creating or joining a league and playing against others. The game features 40 teams, from around the world, and is playable on the PC, PlayStation®2, PlayStation®3, Xbox 360™, Xbox 360 Live Arcade, Nintendo Wii, Nintendo Wii U and Nintendo 3DS.
