I have a program that loads up an image for each URL that the user requests, and places them all onto the server. The problem is that it takes a while for the program to load the image from the URL. I would like to be able to pause all updates and queries to the datastore while I load up the image, and then resume once the image is loaded. Is this possible? If so, how would I go about doing this? A: Yes, it is possible. You have to use channel API, and create separate channel for single image loading. And then you have to run callback each time when you load image and load server image, and cancel task when you want. Have you deployed app? Emma Stone (left) as a Weyland Corporation science officer in "Prometheus." (Cameron Bailey / Fox Searchlight) For "Prometheus," Ridley Scott set out to make a different kind of sci-fi movie. He did so with considerable success, with "Prometheus" turning in a critical and box-office win and grabbing a handful of nominations for awards. More importantly, the movie is a fine piece of science fiction, one that mined a highly fertile potential vein for the genre. It's a radical sci-fi movie that takes a critical look at where we are as a society. But what if it happened to be a vastly less appealing sci-fi movie that gleefully mocks both "Star Trek" and "Star Wars"? Director Ridley Scott's "Prometheus," which opened 1cdb36666d
