Production and writing for the album was entirely handled by the label's American head A&R, Travis Webb. The album features several songwriting collaborations, one of which was with TLC, who officially made her and member Rozonda Thomas official songwriters on this album and the next. This album features the two biggest hits of Sérébéé's career: "Paradise" and "Can I". **Background** The album was intended as a beginning for a new stage of her music career. While the single "Paradise" had been released, the album was solely produced and written for Sérébéé. Production and writing was handled entirely by the label's American head A&R, Travis Webb. She called the album "really '70s soul-influenced." Webb had been working with the singer on a b-side before starting with Sérébéé. Webb brought Sérébéé's music and personality to his company, and developed a clear influence on the sound of the record. **Release and reception** The album had been scheduled to be released later in 1994, but was pushed back. It was released November 4, 1994 through Cold Chillin'. The first single, "Paradise" was originally planned to be "Run It," but Webb suggested that the singer do a contemporary R&B track instead, resulting in the single release of "Paradise." It was produced by the acclaimed rapper Missy Elliott, who also provided background vocals. The song reached number three on the Billboard Hot 100. A second single released from the album was "Can I", and it went on to hit number one on the Billboard Hot 100. It is her biggest-selling single. The song was nominated in the 53rd Grammy Awards for Best R&B Performance by a Duo or Group with Vocal.
